

October 22, 2024

Good morning, I.S.201! I'm Emily from 851, and I'm here for Talk a Lot Tuesday on behalf of the S.E.A.L. Team.

Millions of people worldwide take part in cleaning the environment. They engage in activities such as picking up litter from the floor, reducing their use of plastic, and recycling materials that clutter their homes. But you can also contribute to these efforts! In addition to picking up litter, reducing plastic, and recycling, you can also plant trees, conserve water, use reusable materials (straws, bags, and utensils), and always spread the word to your family and friends so they can contribute to the act!

Today is Clean Up the Earth Day, and we celebrate this day by helping our very own Mother Nature. Earth provided us with the start to where we are today, so we should be providing support for the Earth we live on. We should not bring harm to our Earth! Actions that harm the environment include littering, excessive use of plastic, the use of fossil fuels, and even frequent driving.

With that being said, use your time today to help the environment become more clean and better. As Theodore Roosevelt once said, “The nation behaves well if it treats the natural resources as assets, which it must turn over to the next generation, increased, and not impaired, in value.”

Thank you for listening and have a Transformative Tuesday!

SEAL Team pledge:

We are the Dyker S.E.A.L. Team

Positivity is our dream

We teach it every day

To help others live the optimistic way

We learn to control our emotions and feelings

So, we always have effective social dealings

No stone left unturned; no person left behind

Every member of our team has the power to be kind

We spread kindness to our friends, families, and those who need a smile

When facing hardships and adversity, the S.E.A.L. Team goes the extra mile
