Good morning everyone! My name is Sophia from 731 back again speaking on behalf of the seal team, for Words of Wisdom Wednesday.

I have a question for all of you: how much do you believe you can accomplish on your own? I'm asking because, in reality, working with someone is better than struggling on your own. If you're facing a physical or mental challenge, having someone to lean on is preferable to standing alone.

A few words that I like to go by are, "The way a team plays as a whole determines its success. You may have the greatest bunch of individual stars in the world, but if they don't play together, the club won't be worth a dime."

Basically, even if a room is full of talented individuals, nothing will become better if they cannot share knowledge or support one another. Their skills will then be wasted. Learning together is the best way to develop. Peer collaboration can also at times be beneficial for all parties involved. Let's all work together to improve our class, school, and community, in the words of the great Greek philosopher Aristotle: "The Whole is Greater than the Sum of its Parts."

Thanks for listening have a Work Together Wednesday 😊
