

March 14, 2024

Good morning! It's Micah from 731 and I'm here this Thoughtful Thursday on behalf of the S.E.A.L Team.

Did you know today is March 14th or 3/14 marking National Pi Day? Pi, represented by the Greek letter π , is approximately 3.14159. This number is a unique and infinite number that's been captivating mathematicians for centuries. Pi is essential in mathematics for calculating the area of circles and the volume of spheres, demonstrating how even the most complex shapes and patterns in nature can be understood with mathematics.

Just like the endless digits of Pi, our potential to make a positive impact on others is limitless. Whether it's helping a friend with a math problem, sharing a smile, or offering a listening ear, every small act of kindness creates a ripple effect that can make our school and community a better place. Today, let's combine the joy of mathematical discovery with the warmth of social and emotional awareness. Celebrate Pi Day not just by exploring the mysteries of math, but by making a positive impact and spreading kindness everywhere you go.

Thanks for listening have a Thrive for Knowledge Thursday 😊

SEAL Team pledge:

We are the Dyker S.E.A.L. Team

Positivity is our dream

We teach it every day

To help others live the optimistic way

We learn to control our emotions and feelings

So, we always have effective social dealings

No stone left unturned; no person left behind

Every member of our team has the power to be kind

We spread kindness to our friends, families, and those who need a smile

When facing hardships and adversity, the S.E.A.L. Team goes the extra mile
